These graphs of the National Guard or by their triends. tect. There are five "candidates" friends. These are as follows: Former Assistant Adjutant General John D. Frost, of Spartanburg: Major Frank W. Glen, of Columbia, property and disbursement officer of the Guard; Assistant Adjutant General R. W. Grant, wno has been acting adjutant general since the death of Brig. General Moore; Col. P. K. McCully, of Anderson, former commander of the 118th Infantry, which entered the World War army as the First Reed Elkins, of Columbia, execu- under way at the Jefferson hotel tive secretary of the Wild Cat Vet- at 7:30 o'clock around the banquet erans' Association, the association | board. All the solicitors are exof former Eighty-first Division sol- pected to attend, answers having

Governor Cooper will also have a hearing Wednesday in regard to Gov a magistracy at Spartanburg, Magistrate Joe Walker's administra-tion having been complained of by

Governor Cooper and his family will spend two months on Paris Mountain. The governor's health has not been perfect in recent months, and he finds himself in need of a real rest. The governor's office will be kept open in the capitol, with James Derieux, his private secretary, in charge.

NON-FLIGHT AIRPLANE VOYAGE

Young Californian Desires to Cross Continent

Los Angeles, June 28 .- Plans at work bright and early to attempt a non-stop airplane day morning on the excavations flight from the Pacific to the At-for the new building for the Oste lantic coast in the near future Publishing company, and if have been announced by David R. Davis, a wealthy young California sportsman, and Eric Springer veteran pilot of Europe and America. The flight, if successful, not only would prove epoch making as the tirst of its kind, but probably would bring to America and to an most coveted aerial records- type and other machinery and ap-American machine, two of three marks now held by foreign fly-

would break the non-stop distance record of 1.940 miles, made by Atlantic shortly after the war. In-Alcock and Brown in crossing the dications are that a successful trip brick, slow burning constr for continuous flying, the present mark being 24 hours, 19 minutes. ing will be located on 7 seconds, held in France. The third of the most coveted achievements of flyers-the record for straightaway speed — probably would not be affected in a coast

tempt will be made is an especial- ed. constructed machine in which every modern mechanical appliance tending to insure the success of the trip will be installed. Ev.
